

I have been an XM listener for almost a year now and I think the programming and listener choices in music, news, and weather to be the most comprehensive that I have found.

I strongly recommend XM and love their commitment to helping their customers with the latest and most in depth weather reports possible.

I sincerely hope that the FCC rejects the NAB's petition 04-160 and continues to allow XM radio to support their customers with continued weather channels.

Respectfully Timothy Ownbey.
